ATTN: Licensing and Review

Dear Sir:

We, **J. Page Strohl, David G. Parker, and Michael Barrett**, citizens of the United States of America, do hereby declare the following to the best of our knowledge and belief;

That we are the inventors of the invention described and claimed in the above-referenced U.S. Patent Application;

PSM-123

That we made and conceived this invention while employed by Power Systems Mfg, LLC and that the invention is related to work we are employed to perform and was made within the scope of our employment duties; That the invention was made during working hours and with the use of facilities, equipment, materials, funds, information, and services of Power Systems Mfg, LLC.

That the invention was not made (conceived or first actually reduced to practice) under, nor is there any relationship of the invention to, the performance of any work under any contract of the National Aeronautics and Space Administration.

That the undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
